Dear Mr. Dembek:

Siemens Power Corporation was assigned project number 702 for all its Part 50-related, non-licensed correspondence with the NRC. Similarly, FTI and FCF used project number 693. Since these three companies have been joined in a joint venture as Framatome ANP, it appears logical to use a single project number for all future correspondence. We suggest the continued use of project number 693.

Unless directed otherwise, all letters issued by Framatome ANP will reference project number 693.

Very truly yours,

A handwritten signature in cursive script, reading 'James F. Mallay'.
