MEMORANDUM TO: Those on the Attached List

FROM: Richard K. Struckmeyer  
NMSS Radiation Safety Officer

SUBJECT: VALIDATION OF ELECTRONIC EXPOSURE  
REPORT FOR FIRST QUARTER 2001

The computer disks containing the employee exposure reports for second quarter 2001 have been screened, and a validation report is available on the employee exposure database system (EEDS) website for your review and acceptance ([www.REIRS.COM/eeds.htm](http://www.REIRS.COM/eeds.htm)). None of these records have been entered into the NRC database yet.

We request that you have your Radiation Safety Officer, or other appropriate individual for your office, print the validation report, review the records for your employees and verify that they are acceptable. Please provide comments to us by **October 29, 2001**, concerning the acceptability of this report.

Only the records on the "Passed Validation" list will be entered into the NRC database. We request that you provide us with the necessary information to correct the other records, if you desire that they be entered into the NRC database.

If you have any questions, please contact me. I am the Technical Project Manager for the dosimetry contract.
