SUBJECT: SALEM NUCLEAR GENERATING STATION, UNIT NOS. 1 AND 2, ISSUANCE OF
CONFORMING AMENDMENT RE: TRANSFER OF LICENSES TO THE EXTENT
HELD BY ATLANTIC CITY ELECTRIC COMPANY (ACE) TO PSEG NUCLEAR LLC
(TAC NOS. MB3113 AND MB3114)

Dear Mr. Keiser:

By Order dated April 21, 2000, the U.S. Nuclear Regulatory Commission (NRC) approved the transfer of the licenses for the Salem Nuclear Generating Station (Salem), Unit Nos. 1 and 2, to the extent held by Atlantic City Electric Company (ACE) and Delmarva Power And Light Company (DP&L), to PSEG Nuclear Limited Liability Company (PSEG Nuclear), and approved the conforming amendments pursuant to Sections 50.80 and 50.90 of Title 10 of the *Code of Federal Regulations*. The April 21, 2000, Order was based in part on the premise that the DP&L and ACE interests would be transferred concurrently as a combined interest.

In a supplemental application dated October 10, 2000, DP&L and ACE indicated that, due to certain delays in receiving other necessary regulatory approvals, their interests in the Salem licenses needed to be transferred independently in two phases to PSEG Nuclear. Specifically, the DP&L interest would be transferred first, followed by the transfer of the ACE interest. DP&L and ACE asked that the effectiveness of the Order approving the license transfers be extended until December 31, 2001, due to delays in receiving other regulatory approvals, and that any necessary actions be taken to allow the transfers to occur in two phases. PSEG Nuclear also requested approval of conforming license amendments, modified from the amendments previously approved to reflect the transfers as they may occur in two phases.

By Order dated December 21, 2000, the NRC supplemented the April 21, 2000, Order, and expressly approved the transfer of the Salem licenses, to the extent they are held by DP&L and ACE, to PSEG Nuclear to occur in two phases. In the December 21, 2000, safety evaluation, the NRC staff concluded that PSEG Nuclear was financially qualified to hold the DP&L interest without holding the ACE interest at the same time. In addition, the NRC staff determined that there would be adequate decommissioning funding should the transfers occur in two phases. Thus, the staff has determined that the transfer of the DP&L interest and ACE interest in two phases is acceptable.

In a letter dated December 29, 2000, the NRC issued the conforming amendments associated with the transfer of DP&L's interests in Salem to PSEG Nuclear. Furthermore, by letter dated October 10, 2001, PSEG Nuclear notified the NRC that the closing associated with the transfer of ACE's interests in Salem to PSEG Nuclear is anticipated to occur on October 18, 2001, and that all regulatory approvals have been obtained to the extent necessary to proceed.

H. Keiser

-2-

Accordingly, the Commission has issued the enclosed Amendment Nos. 246 and 227 to Facility Operating License Nos. DPR-70 and DPR-75 for Salem, Unit Nos. 1 and 2. The conforming amendments reflect the transfer of ACE's ownership of Salem, Unit Nos. 1 and 2, to PSEG Nuclear. The safety evaluation supporting the conforming amendment was enclosed with the Order issued on December 21, 2000.

Four copies of Indemnity Agreement No. B-74, Amendment No. 18, required in connection with the transfer of the licenses, are enclosed. Please sign the agreements, as appropriate, and return one copy to me. The remaining three copies are for your records.
