RECEIVED  
OCT 17 11 25  
Rules & Administration

Dear Mr. Kugler:

I am writing to express my unqualified support for the license renewal application for Dominion Resources North Anna Power Station. North Anna Power Station has been a good and valuable neighbor employer within our area.

Over 900 persons are employed at the station, making it one of the largest employers in the area. These employees enjoy their work, find it valuable and challenging, and are proud to be involved in providing a reliable domestic power source for America's energy needs. These are our friends, neighbors, fellow PTA members, soccer coaches. Dominion Resources, through the Employee Volunteer Program, facilitates the donation of tens of thousands of volunteer hours to projects which directly benefit the communities where employees work and live. Financial support for civic and charitable endeavors are provided as well.

Well organized emergency and security plans ensure effective direction and control in emergency situations. These plans have been continually tested and updated, especially in light of recent events, with local government involved in all aspects.

With regards to environmental concerns about the operation, radiological monitoring programs have shown virtually no environmental impact from the operation of the North Anna Power Station. Plant and marine life in Lake Anna is numerous and healthy. Lake Anna is a major recreational area and one of Virginia's outstanding freshwater fishing spots.

In conclusion, I am happy to endorse the North Anna Power Station, and look forward to many more years of safe, successful operation not only as an energy source, but as a valued employer and community member as well.
