Environmental Scoping Meeting North Anna, Units 1 and 2

Nuclear Regulatory Commission
October 18, 2001

Purpose of Today's Meeting

- Discuss NRC's license renewal process
- Describe the environmental review process
- Identify environmental areas that the staff typically evaluates
- Provide the review schedule
- Accept any comments you may have today
- Describe how to submit comments

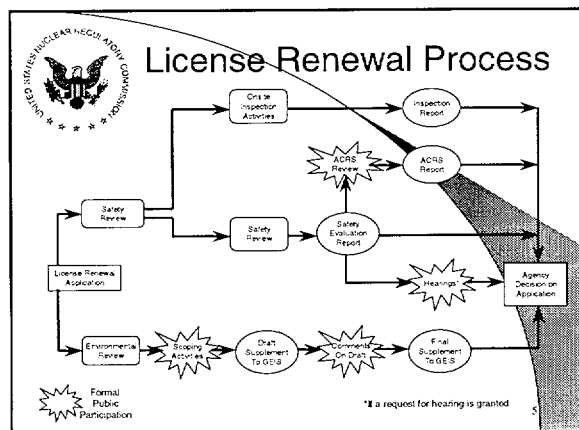

North Anna, Units 1 and 2, License Renewal

- Operating licenses expire in 2018 (Unit 1) and 2020 (Unit 2)
- Application requests authorization to operate units for an additional 20 years

NRC's License Renewal Review

- Safety review
- Environmental review
- Plant inspections
- Advisory Committee on Reactor Safeguards (ACRS)

National Environmental Policy Act

- NEPA requires Federal agencies to use a systematic approach to consider environmental impacts
- An environmental impact statement (EIS) is required for major Federal actions significantly affecting the quality of the human environment
- Commission has determined that an EIS will be prepared for a license renewal action

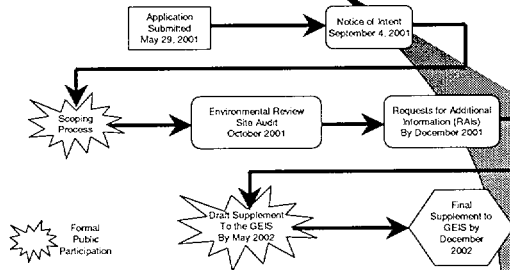

Decision Standard for Environmental Review

To determine whether or not the adverse environmental impacts of license renewal for North Anna, Units 1 and 2, are so great that preserving the option of license renewal for energy planning decisionmakers would be unreasonable.
