

an amount equal to 2 percent of such amount may be used for these activities.

SEC. 311. DEPLETED URANIUM HEXAFLUORIDE. Section 1 of Public Law 105-204 is amended in subsection (b)-

(1) by inserting "except as provided in subsection (c)," after "1321-349),"; and

(2) by striking "fiscal year 2002" and inserting "fiscal year 2005".

SEC. 312. PROHIBITION OF OIL AND GAS DRILLING IN THE FINGER LAKES NATIONAL FOREST, NEW YORK. No Federal permit or lease shall be issued for oil or gas drilling in the Finger Lakes National Forest, New York, during fiscal year 2002.

TITLE IV

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

For expenses necessary to carry out the programs authorized by the Appalachian Regional Development Act of 1965, as amended, notwithstanding section 405 of said Act, and, for necessary expenses for the Federal Co-Chairman and the alternate on the Appalachian Regional Commission, for payment of the Federal share of the administrative expenses of the Commission, including services as authorized by 5 U.S.C. 3109, and hire of passenger motor vehicles, \$71,290,000, to remain available until expended.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

For necessary expenses of the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100-456, section 1441, \$18,500,000, to remain available until expended.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

For necessary expenses of the Delta Regional Authority and to carry out its activities, as authorized by the Delta Regional Authority Act of 2000, \$10,000,000, to remain available until expended.

DENALI COMMISSION

For expenses of the Denali Commission including the purchase, construction and acquisition of plant and capital equipment as necessary and other expenses, \$38,000,000, to remain available until expended.

~~NUCLEAR~~ ~~REGULATORY~~ COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Commission in carrying out the purposes of the Energy Reorganization Act of 1974, as amended, and the Atomic Energy Act of 1954, as amended, including official representation expenses (not to exceed \$15,000), and purchase of promotional items for use in the recruitment of individuals for employment, \$516,900,000, to remain available until expended: *Provided*, That of the amount appropriated herein, \$23,650,000 shall be derived from the ~~<Nuclear>~~ ~~<Waste>~~ Fund: *Provided further*, That revenues from licensing fees, inspection services, and other services and collections estimated at \$473,520,000 in fiscal year 2002 shall be retained and used for necessary salaries and expenses in this account, notwithstanding 31 U.S.C. 3302, and shall remain available until expended: *Provided further*, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation estimated at not more than \$43,380,000: *Provided further*, That, notwithstanding any other provision of law, no funds made available under this or any other Act may be expended by the Commission to implement or enforce any part of 10 C.F.R. Part 35, as adopted by the Commission on October 23, 2000, with respect to diagnostic nuclear medicine, except those parts which establish training and experience requirements for persons seeking licensing as authorized users, until such time as the Commission has reexamined 10 C.F.R. Part 35 and provided a report to the Congress which explains why the burden imposed by 10 C.F.R. Part 35 could not be further reduced.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$6,180,000, to remain available until expended: *Provided*, That revenues from licensing fees, inspection services, and other services and collections estimated at \$5,933,000 in fiscal year 2002 shall be retained and be available until expended, for necessary salaries and expenses in this account notwithstanding 31 U.S.C. 3302: *Provided further*, That the sum herein appropriated shall be reduced by the amount of revenues received during fiscal year 2002 so as to result in a final fiscal year 2002 appropriation estimated at not more than \$247,000.

~~<NUCLEAR>~~ ~~<WASTE>~~ TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

For necessary expenses of the ~~<Nuclear>~~ ~~<Waste>~~ Technical Review Board, as authorized by Public Law 100-203, section 5051, \$3,100,000, to be derived from the ~~<Nuclear>~~ ~~<Waste>~~ Fund, and to remain available until expended.

[Page H7425]

TITLE V

GENERAL PROVISIONS

SEC. 501. None of the funds appropriated by this Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

SEC. 502. (a) PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS.-It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available in this Act should be American-made.

(b) NOTICE REQUIREMENT.-In providing financial assistance to, or entering into any contract with, any entity using funds made available in this Act, the head of each Federal agency, to the greatest extent practicable, shall provide to such entity a notice describing the statement made in subsection (a) by the Congress.

Patty Murray,
Byron L. Dorgan,
Dianne Feinstein,
Tom Harkin,
Daniel K. Inouye,

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2311) making appropriations for energy and water development for the fiscal year ending September 30, 2002, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effects of the action agreed upon by the managers and recommended in the accompanying conference report.

The language and allocations set forth in House Report 107-112 and Senate Report 107-39 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House which is not contradicted by the report of the Senate or the statement of the managers, and Senate report language which is not contradicted by the report of the House or the statement of the managers is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined that the House and Senate reports are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

Senate amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

INTRODUCTION

RESPONSE TO TERRORISM

The conferees commend the personnel of the agencies funded in this bill for their dedication and professionalism in their response to the heinous and cowardly terrorist attacks on the World Trade Center and the Pentagon on September 11, 2001.

The Army Corps of Engineers had a very prominent role in crisis response, engineering assessment, and recovery at the attack sites. The conferees believe that this disaster has again shown the wisdom of the current structure and alignment of the Corps of Engineers within the Department of Defense. The conferees continue to expect the Congress to be fully consulted before any proposed changes affecting the Corps or the unique role of the Chief of Engineers are implemented.

The Department of Energy redoubled efforts to maximize and ensure absolute security of our Nation's nuclear weapons, nuclear materials, and critical scientific and weapons infrastructure. In a quiet, unheralded manner the professionals throughout the country at the Army Corps of Engineers and the Department of the Interior's Bureau of Reclamation have spent much time and personal effort to ensure the safety of many of the Nation's critical water resources. The ~~Nuclear~~ ~~Regulatory~~ Commission remains vigilant about security at the nation's commercial ~~nuclear~~ ~~power~~ reactors. The conferees note that both Federal and contractor employees have made significant contributions at sometimes great personal sacrifice on behalf of our Nation, and we are grateful for their efforts.

The conferees are aware that a number of requirements have surfaced since the terrorist attacks to address the cost of improved security at facilities funded in this bill. These requirements are evolving and are expected to be addressed within the \$40 billion emergency supplemental appropriation that the Congress provided immediately following the terrorist attack. If additional requirements are identified during the year, the conferees expect each agency to follow normal reprogramming procedures to address those requirements. For the Corps of Engineers Operation and Maintenance, General, account, the Corps of Engineers shall submit to the House and Senate Committees for approval, any reprogramming of funds directly related to enhanced security at its projects. If all known enhanced security requirements cannot be fully met through fiscal year 2002 appropriations, the conferees direct that each agency in this bill budget for any such remaining costs in the fiscal year 2003 budget submission to Congress. The conferees direct the Secretaries of the Army, Energy, and Interior to each submit a report to the Appropriations Committees of Congress by February 15, 2002 which specifically identifies in detail all known physical security requirements that have surfaced since the terrorist attacks, and the degree to which each has been met through fiscal year 2002 appropriations and the fiscal year 2003 budget request.

TITLE I

DEPARTMENT OF DEFENSE-CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS-CIVIL

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Corps of Engineers. Additional items of conference agreement are discussed below.

GENERAL INVESTIGATIONS

The conference agreement appropriates \$154,350,000 for General Investigations instead of \$163,260,000 as proposed by the House and \$152,402,000 as proposed by the Senate.

The conferees have agreed to provide \$350,000 for the Corps of Engineers to initiate and complete a reconnaissance study to evaluate environmental restoration, recreation, and related purposes for the Middle Rio Grande, Bosque, New Mexico. The conferees are aware of the unique nature of this study and encourage the Corps of Engineers to establish a regional inter-agency and inter-state steering committee to leverage lessons learned from the Rio Salado, Phoenix and Tempe Reaches, Arizona, and Tres Rio, Arizona, environmental restoration projects as well as experience from within the agency.

The conference agreement includes \$1,200,000 for the Upper Trinity River Basin, Texas, project as proposed by the House and the Senate. The additional amount provided will allow for completion of the Dallas Floodway and Stemmons North Industrial Corridor studies, for continuation of studies on the Clear and West Forks of the Trinity River including the evaluation of existing flood control improvements and the identification of additional measures at their confluence needed to protect the urban center of Fort Worth, and the Big Fossil Creek Watershed, and for initiation of a new study.

The conferees have provided \$100,000 for the Corps of Engineers to address the historic flooding problem at the Sparks Arroyo Colonia in El Paso County, Texas.

The conferees have provided \$100,000 for the Nueces River and Tributaries, Texas, project for a reconnaissance study of recharge structures located on the Edwards Aquifer Recharge Zone in the Nueces River Basin.

Within the amount provided for Flood Plain Management Services, \$100,000 is to update a flood plain study for Tripps Run in the City of Falls Church, Virginia. In addition, the amount provided for Flood Plain Management Services includes \$1,300,000 for the development of a Foundational Floodplain Management Geographic Information System for East Baton Rouge Parish, Louisiana, containing essential graphic and non-graphic detailed databases.
