SUBJECT: REVISION TO SCHEDULE FOR THE CONDUCT OF REVIEW OF THE
TURKEY POINT UNITS 3 AND 4 LICENSE RENEWAL APPLICATION

Dear Mr. Stall:

Enclosed is the revised schedule for the conduct of the review for the Turkey Point Units 3 and 4 license renewal application. The improved schedule reflects the following two items.

1. On July 19, 2001, the Commission issued its decision on an appeal filed by Mr. Mark Oncavage and affirmed Atomic Safety and Licensing Boards decision issued on February 26, 2001 that both the Petitioners have standing but none of the proffered contentions are admissible in the Turkey Point Units 3 and 4 license renewal proceeding. A time period of five months was allocated in the original schedule for potential hearing activities.
2. The NRC staff's revised estimate of the level of effort to complete the final safety evaluation report, based on FPL's completion of the open item responses by November 16, 2001, and related improvements to the milestones for the subsequent ACRS and Commission reviews.

These changes are reflected in the revised target dates in the enclosed schedule. FPL support is necessary to meet these milestones. Therefore, if you have any comments or questions about these changes to the review schedule, please notify me promptly at 301-415-1025.

Sincerely,

/RA/
