

LOVELACE CLINIC

5200 GIBSON BLVD., S.E.

ALBUQUERQUE, NEW MEXICO 87106

Department of Radiology

June 1, 1970

Mr. John E. Bowyer
Isotopes Branch
Division of Materials Licensing
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Bowyer:

We would like to apply for two amendments to our licenses 30-00392-02 and 30-00392-03.

1. We would like to have Mr. Stanley Waligora named as Radiation Protection Officer while Dr. Howarth, who is presently Radiation Protection Officer, is away for an extended leave of absence. Mr. Waligora is a well trained and experienced health physicist and is currently employed as such by the Lovelace Foundation in connection with A.E.C. contract work. A resume of his training and experience is attached. We would also like him to be named as a person by whom the necessary leak tests of sealed sources may be performed.
2. We would like to have Donald E. Butler, M.D. named with me as an individual user. This suggestion was made by Mr. James E. Hyder of the Denver office of the Division of Compliance on his recent visit. Dr. Butler has been trained in all the procedures covered by our licenses since he joined the Lovelace Clinic in 1967. He is fully competent to do all the procedures and is currently responsible for the whole nuclear medicine program under my general direction.

Sincerely yours,

J. W. Grossman
J. W. Grossman, M.D.

JWG:new

cc: Dr. Howarth
Dr. Butler
Mr. Waligora

A/2

We trust that these actions will bring our operations into full compliance with AEC regulations.

Very truly yours,

Tw:rev

cc: Dr. Howarth

Dr. Butler
