Wayne,

I don't seem to be able to lay my hands on document, so would appreciate it if you can fax it again to me. Will activate my fax software immediately.

By the way, who will be going from the NRC to the exit tomorrow? Hope it doesn't turn out too argumentative. I somehow suspect that it will go reasonably well with Groth present

Ian

Thanks Ian, DDM96-009 does not include the u-bend equivalency - it is in WECoo2.odc which I faxed to you last week - titled Eddy Current Low Row U-bend examination. If you need it again just yell.
