Subject: Re: IP2 issue...

I left a voice mail for Cwalina to see if we could set up an ad hoc panel either late today or early tomorrow to take advantage of Wayne Schmidt's presence on-site.

>>> Brian Holian 12/13 5:48 PM >>>

NRR discussion, that occurred today, has indicated a need for NRR to provide additional detail...including some additional OGC guidance...on what the LLTF team thought of this issue when they confronted it...

Possible outcomes would include the same thing we planned last time...asking 3 questions and repaneling...however...Greg Cwalina and Strosnider will get the panel more info on what was evaluated before....

So Wayne...hold off on asking questions.
Pete E./ Scott has action for getting this repaneled
