SUBJECT: MONTICELLO NUCLEAR GENERATING PLANT - CORRECTION TO
AMENDMENT NO. 124 (TAC NO. MB2790)

Dear Mr. Forbes:

On October 30, 2001, the U.S. Nuclear Regulatory Commission (NRC) issued Amendment No. 124 to Facility Operating License No. DPR-22 for the Monticello Nuclear Generating Plant. The amendment consisted of changes to the Technical Specifications (TSs) in response to your application dated August 15, 2001. The amendment revised the TSs to (1) reflect the replacement of Monticello's licensed operator initial and requalification training programs with an accredited systems-approach-to-training program and (2) relocate the existing TS requirements for procedures, records, and reviews to the operational quality assurance plan.

While the attachment to Amendment No. 124 correctly identified the revised pages to insert into the TSs, the instruction to remove TS pages 245, 246, and 247 was inadvertently omitted. Please remove TS pages 245, 246, and 247 from the TSs. As noted in Exhibit B of your application, the information contained on TS pages 245, 246, and 247 was relocated to other licensee-controlled documents. This matter was discussed by me in a telephone conversation with Mr. D. Neve of your staff on November 27, 2001.

If you have any questions concerning this matter, please call me at (301) 415-2296.

Sincerely,

/RA/

Carl F. Lyon, Project Manager, Section 1
