Pennsylvania Department of Environmental Protection
208 West Third Street Suite 101
Williamsport, Pa. 17701-6448

Attention: Mr. James Miller

Reference: Our meeting of July 20, 2001 and your letter dated July 27, 2001

Dear Mr. Miller,

As discussed during our recent meeting, we have contacted six potential remediation specialists to obtain proposals to remedy our existing problem of the mixed wastes currently being stored on site. To date, we have received only four proposals back. These are from:

IT Corporation
GTS Duratek
Scientech
Solutient Technologies

We are still awaiting proposals from Tetra Tech NUS, Inc. and US Ecology. We expect to receive these no later than August 17, 2001.

These proposals will be reviewed and evaluated by an independent specialist hired by us for that purpose. We expect to award the contract no later than October 22, 2001. Unfortunately, we are unable to provide you with a timetable for the initiation or the completion of the required work until such time as the contract has been awarded and we can discuss these matters in greater detail with the company we hire.

Please be assured that we will move as expeditiously as possible to move this project to a successful conclusion.

If you have any questions, please do not hesitate to contact me.

Regards,

William E. Lynch Jr.
Vice President
