OCT 23 2001

MR. PAUL H. LOHAUS
DIRECTOR, OFFICE OF STATE PROGRAMS
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

Dear Mr. Lohaus,

We request your participation in reporting to Congress on the Federal archeological activities that your agency conducted in fiscal year 2001 by completing and submitting the enclosed questionnaire. The Archaeological Resources Protection Act (ARPA; 16 U.S.C. 470ii-mm) and the Archeological and Historic Preservation Act (16 U.S.C. 469-469c) require the Secretary of the Interior to report to Congress on the Federal archeology program. Information from past reports has provided important guidance for Congressional actions, for example, in preparing the 1988 amendments to ARPA which have enhanced the law enforcement provisions of the statute substantially.

The Departmental Consulting Archeologist and the Archeology and Ethnography Program within the National Park Service prepare the Secretary's report based on responses to the enclosed questionnaire. We thank you for your cooperation in preparing and providing the information requested. Without your attention and careful work, our goal of providing a detailed and useful report could not be met. You will find this report helpful in carrying out archeological activities for your agency, in assisting with the development of your archeological program, and as a resource for information exchange with others who may be conducting similar work. In the past we have worked with your staff on this report and we look forward to continuing this cooperation.

This year we include a spreadsheet that summarizes your agency's numeric responses since 1985. We hope that this information is helpful to you in reporting. We would appreciate receiving any corrections so that we may ensure our database contains the most accurate information possible as we prepare an overview of the federal archeology program.

Please return the completed questionnaire and LOOT forms to the Departmental Consulting Archeologist by **March 31, 2002**. As you know, reporting with the LOOT form is a way for many agencies to fulfill their Section 14(c) responsibilities under ARPA.

If there are questions about the questionnaire, please contact Dr. Barbara Little of my staff at (202) 343-1058; FAX (202) 523-1547; E-mail: barbara_little@nps.gov. On behalf of the Secretary of the Interior and Congress, thank you for your continuing participation in this important program review and reporting effort.

Sincerely,

Francis P. McManamon, Ph.D.
Departmental Consulting Archeologist

**THE REPORT TO CONGRESS ON
THE FEDERAL ARCHEOLOGY PROGRAM**

GSA Control Number: 0236-DOI-AN

The Report to Congress on Federal archeological activities is prepared for the Secretary of the Interior by the Departmental Consulting Archeologist, National Park Service. The report is required by Section 5(c) of the Archeological and Historic Preservation Act of 1974 (AHPA; 16 USC 469-469c) and Section 13 of the Archaeological Resources Protection Act of 1979 (ARPA; 16 USC 470aa-470mm). These statutes direct the Secretary to report on the scope and effectiveness of Federal archeological activities and to provide information about such activities and programs to Congress. This report provides information about Federal archeological activities in order to offer assistance with professional methods for archeological preservation and for the administration of historic preservation programs. Sections 2 and 101(h) of the National Historic Preservation Act (NHPA; 16 USC 470 *et seq.*) authorize the Secretary to collect and distribute such information to Federal agencies, State and local governments, private organizations and individuals, other nations, and international organizations.

Questionnaire on Fiscal Year Activities (October 1, 2000 - September 30, 2001)

Instructions: Please note that this questionnaire is the same as last year's. This questionnaire will not be changed significantly until calendar year 2002.

investigations should respond to questions in Sections A-I. Sections J-L apply only to agencies that also manage Federal or Indian land. It is understood that precise data are not always available and that in some cases knowledgeable estimates must be made.

Note that these questions specifically apply to archeological investigation, protection, management, recovery, and collections management activities carried out under Federal authority, and do not pertain to all cultural resource management activities. In the event that a department/agency takes the position that the entire questionnaire is not applicable, return the uncompleted questionnaire with a cover letter of explanation.

Fill out each line of the Answer Sheet with numerical data called for, or with no data to report (ND). Round all dollar (\$) amounts to the nearest hundred.

ARPA LOOT Clearinghouse Data: The attached LOOT form (OMB No.1024-0111) is the primary source for information on cases of archeological resource crime. Although submitting this form is voluntary, the information has been used by law enforcement and attorneys to guide case development. Please fill out a form **OR** send copies of equivalent information from the case files for each citation, misdemeanor and felony conviction and civil penalty completed in the reporting year.

Due Dates and Assistance: The headquarters office of each agency should send their response to the Departmental Consulting Archeologist, National Park Service, Archeology and Ethnography Program, 1849 C St. NW, Room NC210, Washington, DC 20240 by **March 31, 2002**. Questions about this questionnaire should be directed to Barbara Little of the Archeology and Ethnography Program, at 202-343-1058, Fax: 202-523-1547; E-mail: barbara_little@nps.gov.

For Agency Headquarters Use Only. *The headquarters office of each agency shall provide a response to the questionnaire on the Answer Sheet, summarizing information collected from regions, districts, divisions, etc. Narrative responses and LOOT forms can be submitted by separate regional, state, division, etc. office. Please compile all responses in either Word for Windows 6.0, WordPerfect 6.1 for Windows, or WordPerfect 5.1 provided on the attached disk. Agencies may reformat the questionnaire to expedite the collection of information from their field offices. However, the questionnaire and answer sheet must be submitted to us in its original form.*

Section A. Agency Archeology Program Highlights

A1. Briefly (200 words or less) describe one exemplary project or program conducted by your office in this reporting year highlighting its public benefits and research benefits.

Section B. Participation, Education, and Outreach in the Agency Archeology Program

_____ B1. Number of partnership agreements (e.g. cooperative, cost-share, interagency, research) in the archeology program. Do not include contracts.

\$ _____ B2. Total dollar value of contributions provided by partners (e.g. money, services)

_____ B3. Volunteer hours contributed to the agency for the benefit of archeology

\$ _____ B4. Total dollar value of work performed by volunteers

B5. Briefly (200 words or less) describe one exemplary partnership, education, or outreach program/product conducted by your office in the reporting year.

Section C. Archeological Overview

_____ C1. Number of area-wide overviews and non-project planning under ARPA and NHPA (e.g. base comprehensive plans, Forest overviews, preservation plans, historic context statements)

Section D. Archeological Identification and Evaluation [This section includes Section 106 undertakings and activities under Section 110 of NHPA and ARPA conducted on federal and non-federal land and performed or funded by agency or non-agency entities in the reporting year.]

- _____ D1. Number of projects for which there were database and file searches, literature reviews and map checks that resulted in a file letter, report, or other documentation
- _____ D2. Number of field studies to identify and evaluate archeological sites
- _____ D3. Number of acres inventoried in the reporting year
- _____ D4. Number of archeological sites identified in the reporting year
- _____ D5. Number of archeological sites determined eligible for the National Register of Historic Places (NRHP) by the Keeper or through documented consultation with the SHPO in the reporting year
- _____ D6. Number of archeological sites on agency managed land that were stabilized, rehabilitated, monitored, or protected (e.g. anti-vandalism signs, fences, road closures) in the reporting year. [Report each archeological site protected only once. Do not include sites avoided during a Section 106 undertaking]

D7. If needed, clarify responses to questions about archeological identification and evaluation.

Section E. Archeological Data Recovery [Data recovery projects include recordation, surface collection, and excavation and are conducted to mitigate effects to an archeological site threatened by destruction or disturbance. This section includes Section 106 undertakings and activities under Section 110 of NHPA and ARPA conducted on federal and non-federal land and performed or funded by agency or non-agency entities in the reporting year.]

F3. If needed, clarify responses to questions about unanticipated archeological discoveries.

Section G. Archeological Information Management

G1. Describe how the agency is maintaining and improving the management of records for collections, permits, sites, and inventory. Include a description of any data-sharing efforts between your office and other organizations. If there is no change from previous years, indicate no change.

Section H. Archeological Collections Management

_____ H1. Number of items/lots or cubic feet of material remains (artifacts, samples) curated in all repositories (explain dimension used in H8)

% _____ H2. Percentage of amount identified in H1 that is accessioned and cataloged.

_____ H3. Number of linear feet of records associated with stored archeological materials

_____ H4. Number of federal museums/repositories curating agency collections

_____ H5. Number of non-federal museums/repositories curating agency collections

H6. When was the agency policy for management and preservation of its collections established or last revised, if different? How is it being implemented?

H7. List the museums/repositories curating agency collections. If there is no change from previous years, indicate no change.

H8. If needed, clarify responses to questions above about archeological collections management.

Section I. Cost and Benefits of Archeology Program

\$ _____ I1. Total amount allocated (directly from Congress or as a result of internal agency allocations) to the cultural resource management program that is used for archeological activities

Archeology and Ethnography Program

Subject: Archeological Resource Protection
Listing of Outlaw Treachery (LOOT) Information Clearinghouse

Issue: The looting and vandalism of archeological sites robs all the citizens of a non-renewable part of their cultural heritage. Looters destroy information that often is the only way we can ever understand how people lived in the past. Archeological sites do not regenerate, nor can they be replaced. The National Strategy for Federal Archeology presented by the Department of the Interior stresses goals which will improve agencies' stewardship capabilities toward archeological resources. Three of them particularly are important for archeological protection. They are improved information exchange among law enforcement and cultural resources professionals, improved public awareness programs, and improved information about archeological sites and collections. In 1988, significant assistance for improved stewardship was provided by amendments to the Archaeological Resources Protection Act (ARPA, 16 U.S.C. 470aa-mm) which among other things requires Federal land managing agencies to develop documents for reporting suspected violations.

Status: Significant progress in conducting archeological law enforcement casework has been made based upon availability of technical information, field methods training through the Federal Law Enforcement Training Center (FLETC), and protection program training through the Archeology and Ethnography program. Since 1987, one of the sources for case information has been the Listing of Outlaw Treachery (LOOT) Information Clearinghouse. The LOOT Clearinghouse contains voluntarily submitted summary records of prosecuted cases in both hardcopy files and computerized database formats. There are nearly 500 cases currently in LOOT.

A standard LOOT form has been developed to systematically organize case information. The form (NPS 10-29) contains data on such things as arrests, indictments, trials, pleas, judgements, sentences, investigative reports, court documents, and archeological resources damage assessments. Federal information collection requirements have been met through administrative review by the Office of Management and Budget, and LOOT has received clearance for its consistency with Federal legal responsibilities such as Privacy Act and FOIA issues. This means any Federal agency may adopt the LOOT form as part of their program to comply with Section 14(c) of the Archaeological Resources Protection Act.

The case information in LOOT has been used by cultural resources, law enforcement, and justice personnel to improve general understanding of archeological resources crime as well as to guide case development. Most recently, the LOOT Clearinghouse served as a primary source for compiling the *Archeological Resources Protection: Federal Prosecution Sourcebook*, which was co-published with the Department of Justice and serves as a principal technical reference for United States Attorneys and departmental solicitors. LOOT also has been used as a source for material in archeological protection training.

What is Needed: Through ongoing cooperation of law enforcement and justice personnel in submitting LOOT entries and promoting the participation in LOOT by agency managers, the LOOT Clearinghouse can continue to provide current summary and comparative information about archeological looting and vandalism. Agency press releases sent with LOOT entries are important as well. These press releases are printed in the *Common Ground* which is distributed to nearly 8,000 agencies and professionals involved in cultural resources management and law enforcement. In addition, press releases are mailed to more than 180 editors of other major publications. This kind of information exchange can play a major part in raising public awareness of the looting problem and helping to realize the deterrence effect of efficient casework.

Hello Mr. Siurano,

It's that time again. The following letter will soon go to:

Mr. Paul H. Lohaus
Director, Office of State Programs
Nuclear Regulatory Commission
Washington, D.C. 20555-0001

so here's a heads-up with the forms attached for your use. Also
attached is an Excel sheet that summarizes the data that we have for
your agency to date. I'd appreciate corrections if available.

Please let me know right away if you have any corrections to the
name/address for your bureau's letter and if I need to send any
others (you know the protocol better than I). Let me know if you
have trouble reading the attachments or if you have questions.
many thanks for your help.

Dear...

We request your participation in reporting to Congress on the Federal
archeological activities that your agency conducted in fiscal year
2001 by completing and submitting the enclosed questionnaire. The
Archaeological Resources Protection Act (ARPA; 16 U.S.C. 470ii-mm) and
the Archeological and Historic Preservation Act (16 U.S.C. 469-469c)
require the Secretary of the Interior to report to Congress on the
Federal archeology program. Information from past reports has

provided important guidance for Congressional actions, for example, in preparing the 1988 amendments to ARPA which have enhanced the law enforcement provisions of the statute substantially.

The Departmental Consulting Archeologist and the Archeology and Ethnography Program within the National Park Service prepare the Secretary's report based on responses to the enclosed questionnaire. We thank you for your cooperation in preparing and providing the information requested. Without your attention and careful work, our goal of providing a detailed and useful report could not be met. You will find this report helpful in carrying out archeological activities for your agency, in assisting with the development of your archeological program, and as a resource for information exchange with others who may be conducting similar work. In the past we have worked with your staff on this report and we look forward to continuing this cooperation.

This year we include a spreadsheet that summarizes your agency's numeric responses since 1985. We hope that this information is helpful to you in reporting. We would appreciate receiving any corrections so that we may ensure our database contains the most accurate information possible as we prepare an overview of the federal archeology program.

Please return the completed questionnaire and LOOT forms to the Departmental Consulting Archeologist by March 31, 2002. As you know, reporting with the LOOT form is a way for many agencies to fulfill their Section 14(c) responsibilities under ARPA.

If there are questions about the questionnaire, please contact Dr. Barbara Little of my staff at (202) 343-1058; FAX (202) 523-1547; E-mail: barbara_little@nps.gov. On behalf of the Secretary of the Interior and Congress, thank you for your continuing participation in this important program review and reporting effort.

Sincerely,
Francis P. McManamon, Ph.D.
