Describe Follow-up: (Telephone, Internet, Chamber of Commerce, Other) Cranford Chamber of Commerce (908-272-6114) According to the Chamber of Commerce, Boyle-Midway produced aerosol cans for commercial products at the site. The building was purchased about a year and a half ago, gutted, and converted to a combination office and warehouse facility. From 1974 and perhaps prior, Boyle-Midway was a subsidiary of American Home Products. During the early eighties, American Home Products did business as Boyle-Midway. American Home Products sold Boyle-Midway to Reckitt Coleman (later Benckiser through merger with Benckiser) in 1990, but a number of Boyle-Midway products (e.g., Black Flag products) and facilities, including the facility referenced in this file, did not go to Reckitt Benckiser. According to the database, the Fil-Tec gauges were installed in 1973 and 1981, so were likely removed in normal process renovation some years ago.		
Describe Communication with Registration Vendor: Michelle Alvarado at Industrial Dynamics (310-257-2202) Vendor could locate no records concerning the gauges in question.

<input type="checkbox"/>	
<input type="checkbox"/>	

We have no information on the gauges or on the decommissioning of the site that would allow us draw conclusions concerning the fate of the gauges. Given that the gauges were distributed in 1973 and 1981, it is likely they were taken out of service long ago. Further effort is not justified.
