and Rulemaking Branch
Division of Regulatory Improvement Programs, NRR

FROM: Joseph L. Birmingham, Project Manager/**RA/Signed**
Risk Informed Initiatives, Environmental, Decommissioning,
and Rulemaking Branch
Division of Regulatory Improvement Programs, NRR

SUBJECT: SUMMARY OF NOVEMBER 16, 2001, MEETING WITH NUCLEAR
ENERGY INSTITUTE ON SECURITY BASED EMERGENCY ACTION
LEVELS

A meeting between Nuclear Regulatory Commission (NRC) staff, industry, and representatives of the Nuclear Energy Institute (NEI) was held November 16, 2001, at NEI headquarters in Washington, D. C. The meeting was not open to public observation because the discussion was on security based emergency action levels and credible threat events. Those attending the meeting are listed in Attachment 1.

This meeting was held to discuss possible revisions to security-based emergency action levels (EALs). These EALs are being considered for revision by the NEI working group in order to be responsive to the NRC threat advisory guidance issued after the September 11, 2001 attack on the World Trade Center.

After the discussion, the NEI working group indicated it will submit revised security EALs (NUMARC/NESP-007, HU4, HA4, HS1, HG1) for NRC review.
