Warrenville, IL 60555

SUBJECT: QUAD CITIES NUCLEAR POWER STATION, UNITS 1 AND 2 - DRAFT SAFETY
EVALUATION FOR PROPOSED EXTENDED POWER UPRATE LICENSE
AMENDMENTS (TAC NOS. MB0842 AND MB0843)

Dear Mr. Kingsley:

We have reviewed your letter dated November 16, 2001, which provides your comments on the draft safety evaluation (SE) we provided to you by our letter dated October 20, 2001. The draft SE is for amendments allowing an increase in the licensed power level from 2511 megawatts thermal (MWt) to 2957 MWt at Quad Cities Nuclear Power Station, Units 1 and 2 (QCNPS), as requested by your application dated December 27, 2000. The amendments would approve changes to the operating licenses and the technical specifications to implement uprated power operation.

The enclosed draft SE for QCNPS has been revised since our October 20, 2001, letter to you. The draft SE is being withheld from public disclosure at this time because it may contain proprietary information. We are providing you this draft SE for the purpose of identifying any proprietary information pursuant to 10 CFR 2.790. Please provide any comments that you may have on the enclosed draft SE with regard to factual accuracy or inclusion of proprietary information by December 17, 2001. Should a situation occur which prevents you from meeting the date, please contact Lawrence W. Rossbach at (301) 415-2863 or Stewart N. Bailey at (301) 415-1321.

Sincerely,

/RA/

Anthony J. Mendiola, Chief, Section 2
Project Directorate III
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-254 and 50-265

Enclosure: Draft Safety Evaluation
