Tim,

I am trying to get the complete package together. When done, I will be looking for each group to review the responses in the aggregate. As soon as question 1 is completed, I will get it out.

Attached is a revised writeup for the IP2 question 4. Revisions were made to the two SDP paragraphs based on additional discussions with Steve Long and others in IIPB. Let me know if you need anything else for this, otherwise I think I'm done.
