Subject: IP2 requestes for Exemption/Extension on SG since 1995

Pat:

Some time ago you indicated that you had asked the licensee for a list of such requests. Have you come up with any? Just looking at the TS it appears that other than amendment 201 of 6/99 that extended the 24 m inspection cycle, there were amendments 180 in 3/95, 192 in 5/97, 204 in 10/99, and 209 in 4/00 (post event) related to SGs. Do you have the files with the SEs that I may look at? Please let me know.

Thanx.

Maitri
