Dear Program Administrator:

Pursuant to 10 CFR 74.13, Enclosure 1 provides completed Forms DOE/NRC-742, "Material Balance Report," and DOE/NRC-742C, "Physical Inventory Listing." The data on these forms provide inventory changes at Diablo Canyon Power Plant (DCPP) Units 1 and 2 for the semiannual period ending September 30, 2001, for the following nuclear materials: enriched uranium fuel, plutonium in fuel, and enriched uranium in neutron flux detectors.

Pursuant to 10 CFR 74.15, Enclosure 2 provides data required by Form DOE/NRC-741, "Nuclear Material Transaction Report." The data on these forms provide the receipt of new fuel, normal operational use of enriched uranium, and the production and decay of plutonium at DCPP Units 1 and 2 for the semiannual period ending September 30, 2001.

Enclosure 3 provides a PC diskette containing files of the above forms. The files were prepared in accordance with NMMSS Report D-24, "Personal Computer Data Input for NRC Licensees," dated May 1999. A diskette transmittal form is also provided.
