Mr. William Floyd, Program Manager
Radiation Control Bureau
Field Operations Division
New Mexico Department of Environment
1190 Saint Francis Drive
P. O. Box 26110
Sante Fe, NM 87502

Dear Mr. Floyd:

We have reviewed the proposed State of New Mexico regulations related to Radiation Protection Subpart 5. In addition, we reviewed New Mexico's Legally Binding Requirement for the adoption of 10 CFR 34.2. The proposed regulations are in response to the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 30, 34, 71 and 150. We discussed our review of the regulations with Mr. Stanley Fitch on November 2, 2001.

As a result of our review, we have no comments but we suggest two editorial changes, as enclosed. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of other New Mexico regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter including the SRS Data Sheet is posted on the STP Web Site: <http://www.hsrdo.nrc.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or John Zabko at 301-415-2308 or JGZ@NRC.GOV.

Sincerely,

/RA/

Frederick C. Combs, Deputy Director
Office of State and Tribal Programs

Editorial Comments

1. In 20.3.5.11, the State uses the “§” symbol in reference to 10 CFR 71. This is the incorrect use of this symbol and should be replaced with the word “Part” or left as 10 CFR 71.
2. In 20.3.5.21.C(8), the ANSI reference should be ANSI N432-1980.

1. Or other generic Legally Binding Requirements.
2. (Y/N) Y means "Yes," there are comments in the review letter that the State needs to address.
N means "No," there are no comments in the review letter.
3. Not required means these regulations are not required for purposes of compatibility.
4. A State need not adopt a specific regulation if the State has no licensees that would be subject to that regulation.
