Subject: Reply to a Notice of Violation

- a) 10 CFR 2.201 We agree with the violation. It was a misunderstanding on how I interpreted my license in regards to the method for complete in-house training by myself to our employees who will be using these devices. We will be sending our new employees to the manufacturer's training course instead of in-house training when we feel they are responsible to utilize these devices. We have sent Jim Pogasic to the manufacturer's training course (See attached sheets). The individual is in compliance as of August 16, 2001.

If you have any questions, please feel free to call.

Very truly yours,
