Dear Mr. Driskill,

I am responding to your letter of December 13, 2001, in which you asked the U.S. Nuclear Regulatory Commission (NRC) to revisit your request of March 2000, for rule changes for requiring better protection from threats and terrorism.

As a result of the terrorist attacks of September 11, 2001, the staff was directed to thoroughly reevaluate NRC's safeguards and physical security programs. This reevaluation is a top-to-bottom analysis involving all aspects of the Agency's safeguards and physical security programs, including the current regulations. As my staff discussed with you on December 19, 2001, in a telephone conference, NRC is considering many options and will consider revisions to the regulations during this process. I trust this responds to your query and clarifies our position.

We appreciate your interest in this matter. Please contact me, or Dan Martin of my staff at (301) 415-7254 if you have any further questions.

Sincerely,

/RA/

Eric J. Leeds
