Office of Executive Director

Executive Director
Charles M. Hardin
Kentucky

Administrative Officer
Patricia C. Gorman
Kentucky

Dear Mr. Todd:

It is with regret that I inform you that the Board of Directors of the Conference of Radiation Control Program Directors, Inc. (CRCPD) voted to not renew our Agreement with DigiScript effective immediately per Section I, A and B. Section I.A. states it is CRCPD's responsibility to notify you "60 days prior to the end of the then current term" should we wish to terminate the Agreement. Section I.B. states that "Either party, with or without cause, can terminate this Agreement by giving written notice up to 1 year from the date of execution of this Agreement." This notice falls within the 60 day period as our Agreement shows an effective date of February 14, 2001.

This decision was based on the fact that our membership was given the privilege of accessing this information "free of charge" for the first year. To date, our records indicate only 144 out of 900 plus members have signed up to view this information. While the Board did consider several options for providing DigiScript with assistance regarding support of the upfront costs, the Board concluded that this was not feasible in light of major changes affecting the organization over the next several years.

In closing, please express our appreciation to your staff for the dedication and quality work that they have produced. To date, we have only received positive responses to the information that has been posted to the virtual library. We thank you for your partnership over this past year and wish you and your company much success in the future.

Sincerely,

Patricia C. Gorman
