

January 11, 2002

The Honorable Susan M. Collins  
United States Senate  
Washington, DC 20510-1904

Dear Senator Collins:

We have reviewed the Web site referenced by your constituent, Mrs. Mary Dinan of Cumberland, Maine. Mrs. Dinan believed that the Web site, [www.jeppesen.com](http://www.jeppesen.com), published various images and charts of the locations of restricted areas around nuclear sites. The owner of the site, Jeppesen, is a Boeing company and a leading supplier of flight information, flight planning services, aviation weather services, maintenance information and aviation training systems.

As you may know, the NRC is undergoing a thorough review of all our security requirements for nuclear facilities, including information that may be inappropriately available to the public via Web sites, through documents, or by other means.

We have not found any material on the Web site that would constitute a security risk to nuclear power plants or other NRC-regulated facilities. However, we appreciate all citizens' assistance in the identification of information they believe could threaten the security or safety of nuclear facilities.

Sincerely,

/RA/

William D. Travers  
Executive Director  
for Operations
