TO: All Radioactive Materials Licensees & Interested Parties  
FROM: Terry C. Frazee, Supervisor, Radioactive Materials Section  
SUBJECT: 2002 PROPOSED FEES & HEARING DATE

We are proposing to adjust our annual fees for radioactive materials licenses to fully meet necessary program costs. We received authorization from the 2001 Legislature to increase our fees approximately 7.9% for all radioactive materials licenses including the "hourly rate" charged for certain unusual activities such as monitoring of environmental clean-up projects and special evaluations of sealed sources and devices. This is necessary to fully cover recent budget increases; in particular, the previously approved salary increase of 8% for technical staff. The proposed increase is needed to maintain the current level of program services.

A summary of the proposed radioactive materials license fees is attached. The full text of the proposed fee change is being published in the Washington State Register (WSR 01-24-104).

A public hearing on the proposed radioactive materials fees will be held on January 8, 2002, at 1:30 PM in Building 5, 7171 Cleanwater Lane, Tumwater, WA (Exit 101 from I-5, go 1 mile east on Airdustrial Way, turn left on Cleanwater Lane, left at second drive). You may attend in person or send to me your written comments at P.O. Box 47827, Olympia, WA 98504-7827 or FAX to 360-236-2255 or e-mail to [terry.frazee@doh.wa.gov](mailto:terry.frazee@doh.wa.gov). Comments must be received by January 8, 2002, to assure consideration. The new fee schedule is expected to take effect for radioactive materials licensees with due dates on or after February 28, 2002.
