Docket Nos. 50-250 and 50-251
License Renewal Safety Evaluation Report Open Item Regarding
Aging Management of Concrete

By letter dated October 30, 2001 from Christopher I. Grimes of NRC to J. A. Stall of FPL, the NRC identified the requirement for FPL to supplement its response to Request for Additional Information (RAI) 3.6.2.1-2 and commitments for aging management for concrete structures within the scope of license renewal. The letter requested that FPL respond by November 16, 2001 in order to maintain the Turkey Point license renewal review schedule. The required supplement to FPL's RAI 3.6.2.1-2 response and commitments regarding aging management for concrete structures within the scope of license renewal were provided in Attachment 5 to FPL letter number L-2001-236 dated November 1, 2001. No further action is required.
