IMPLEMENTATION OF IMPROVED TECHNICAL SPECIFICATIONS
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

On August 8, 2001, the NRC issued Amendments 201 and 206 to Facility Operating Licenses DPR-24 and DPR-27 for Point Beach Nuclear Plant, Units 1 and 2, respectively. These amendments converted the Point Beach Current Technical Specifications (CTS) to the Point Beach Improved Technical Specifications (ITS). The NRC directed that these amendments be implemented by December 31, 2001.

Point Beach implemented ITS on November 20, 2001, in their entirety, along with the associated license conditions. This letter provides the requested notification of implementation as requested in the NRC's August 8 letter that conveyed the ITS.
