Dear Mr. Mallay:

I wish to inform you that Dr. Donald E. Carlson is resigning as a member of the ANS 5.1 decay heat working group of the ANS-19 subcommittee. Dr. Carlson has been reassigned to another position within the NRC to assume significant responsibility for advanced reactor reviews.

I would like to nominate Mr. G. Norman Lauben as the authorized NRC representative on the 5.1 working group. Mr. Lauben is currently working on decay heat as it relates to 10CFR 50.46, and already works closely with the current chairman of the working group, Dr. Michael C. Brady Raap.

It is requested that you process Dr. Carlson's resignation and Mr. Lauben's nomination at the same time.

In accordance with OMB Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an authorized NRC representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence to Mr. Lauben should be addressed to:
