Supplemental Information Regarding Application for Order and  
Conforming Administrative Amendments for Transfers of Licenses

On behalf of Reliant Energy, Inc. (formerly known as Houston Lighting & Power Company and referred to herein as Reliant Energy), STP Nuclear Operating Company submits the following supplemental information regarding its Application for Order and Conforming Administrative Amendments for Transfers of Licenses (Application) submitted in Reference 1. The pending license transfer application requests that the Nuclear Regulatory Commission (NRC) consent to the direct and indirect transfers of control of Reliant Energy's ownership interest in the South Texas Project Electric Generating Station, Units 1 and 2 (STPEGS).

NRC approval of the following transfers has been sought via References 1 through 3:

- (1) An indirect transfer of control of Reliant Energy's interest in STPEGS in connection with the formation of a new parent holding company of Reliant Energy, currently referred to as "Regco." The name of this entity has been finalized as "CenterPoint Energy, Inc."
- (2) A direct transfer of control of Reliant Energy's interest in STPEGS to a Texas partnership, currently known as "Texas Genco LP," which will be indirectly wholly owned by CenterPoint Energy, Inc. The name of this entity has been finalized as "Texas Genco LP."

Step 2 will involve a series of simultaneous transactions, which will result in the transfer of the STPEGS interest to Texas Genco LP. A simplified organizational chart of the post-transfer parent companies of Texas Genco LP is provided as Attachment 1 and reflects the planned ownership arrangements following step 2 above. Thereafter, Texas Genco LP will remain the licensee. Any subsequent transfer of control of Texas Genco LP's interest in STPEGS would be the subject of a future license transfer application.

The above confirmation of final names for the entities involved does not otherwise affect the pending Application, nor does it affect any of the underlying information provided in References 1 through 3, except as stated herein.
