Subject: comments on Decommissioning US Nuclear Power plants

11/9/01

66 FR 56721

(21)

I am violently opposed to the Nuclear Regulatory Commission's proposal to further relax its decommissioning requirements for nuclear power reactors. This is nothing but a sellout to the nuclear industry-- which puts citizens at risk--with no recourse in case of liabilities.

This is wrong and dangerous.

Thank you for your time.
