To even think that decommissioning nuclear power plants' regulations via presidential fiat is acceptable is beyond logic and reason.

You are insuring the further deterioration of health for innocent civilians and this planet.

Bush is stripping us all of those safeguards we all need to protect citizens--and this includes you. He has only corporate interests--the nuclear power industry being one. To enforce no liability after they leave is simply criminal. You do not need to further endanger our lives while the polluters go scott free..

Enough.
