**Subject:** SG SDP review...ONGOING!

I hear this is the day...to start our review of ConED supplemental info

Steve & Emmett

What do you have?

I'm aware that Trapp has sent Steve some info...but i'm not sure Emmett has any.

I just left you each a voice message. Hope ACRS went well..

I will ask Scott Barber, acting for Eselgroth, to:

- 1) get you info that we have.
- 2) schedule a quick call...this afternoon if possible...to verify what we have...and that you have it.

Jim Trapp has done a quick assessment - that Steve has seen...that we will pass along. It ends up as a "High yellow".

Schedule. We are at 88 days on our enforcement number for tracking this issue. We have goals of 90, and at the most 120 for timeliness.

Besides that... I want to issue this by month's end. Startup is still scheduled for mid, late Nov.

Bill R. - I may need help verifying we have what licensee wants us to have. I only have seen a couple faxes.

THank you all

BH
