Subject: Re: INDIAN POINT 2 INSPECTION REPORT

Wayne,

Thanks for your reply.

Ted

Ted - the inspection world changed since Ian was doing this ,as he recognizes. At the SDP panel the decision was to only go after the Corrective Action issue. The Program issues are real, but it is very hard to make them any stronger without making them a finding. In the context of the new program I think that is about all we can do - without going after the specific analysts - which we avoided.
