**Subject:** Re: Waltz Mill

Stephanie,

David is going to handle the visit to Waltz Mill as an inspection. If I understand it right, he wants to introduce the inspection as a continuation of the meetings/inspections that you, Emmett and Caius did at IP-2. Would you provide him with the dates of those visits and would you prepare some brief summaries of those visits so that he can incorporate them into the inspection report that he will be preparing? Also, would you look at the email that he sent last week on his "follow up inspection" plans? I'd like to give him some feedback.

Thanks,  
Ted

Are we set to start tomorrow? Any input on the inspection plan yet? For the entrance at Waltz Mill, can you provide the dates for Stephanie, Emmitt and Caius have been at IP2, so I can reference the activities as part of the inspection?
