Greg:

I understand that there is a public steam generator workshop with industry (in Bethesda) on the 27th and 28th which the all the SG people of EMCB will be attending, making them unavailable for the ARB. Louise Lund's participation at the last ARB was helpful and I think she should attend any substantive ARB on this issue. I suggest that the 27th be used solely for status and a substantive ARB be scheduled when all appropriate staff and I can attend.

Let me know the schedule. Thanks!
