Subject: Post Written Examination Review by Facility

Mr. Mellon:

Florida Power has completed its review of the written examination administered on January 25, 2002. This review included an analysis of the examination statistics and feedback received from the examinees. Based upon this review, and the fact that preliminary grading revealed no borderline results, Florida Power has no comments concerning examination quality or its administration.

If you need any additional information or assistance please contact David deMontfort at 352-563-4948.

Sincerely:

David deMontfort
