

March 26, 02

MEMORANDUM TO: Michael T. Lesar, Chief  
Rules and Directives Branch  
Division of Administrative Services  
Office of Administration

FROM: Samuel J. Collins, Director */RA/*  
Office of Nuclear Reactor Regulation

SUBJECT: ISSUANCE OF REVISED MANAGEMENT DIRECTIVE 8.13, "REACTOR  
OVERSIGHT PROCESS" AND ELIMINATION OF MANAGEMENT  
DIRECTIVE 8.6, "SYSTEMATIC ASSESSMENT OF LICENSEE  
PERFORMANCE"

Attached for your review and issuance is a complete revision to Management Directive (MD) 8.13, "Reactor Oversight Process." This MD was previously entitled "Evaluating the Safety Performance of Nuclear Power Reactor Licensees," but has been revised to reflect the new Reactor Oversight Process (ROP) that was implemented on April 2, 2000. Attached is a Form 521 to request issuance of the revised MD 8.13.

As background, NRR issued a draft of the revised MD 8.13 in March 2000 for use and comment as part of initial implementation of the ROP. NRR revised the draft MD to incorporate lessons learned from initial implementation, and re-issued the MD for comment in December 2001 to the NRC offices that were affected by the changes to the draft MD. Attached is a table listing all comments received on both versions of the draft MD 8.13 and their resolutions.

The Commission approved implementation of the revised ROP and termination of the Systematic Assessment of Licensee Performance (SALP) process in the Staff Requirements Memoranda related to SECY-00-0049, "Results of the Revised Reactor Oversight Process Pilot Program." The revised MD 8.13 documents the staff's new performance assessment process, which allows for elimination of MD 8.6, "Systematic Assessment of Licensee Performance (SALP)." Therefore, we have also attached a second Form 521 to eliminate MD 8.6.
