

NRC INSPECTION MANUAL

IIPB

Change Notice 02-004

DELETED:

<u>Number</u>	<u>Date</u>
1. IMC 1007	09/25/01
2. TI 2800/029, Rev. 1	08/28/00
3. IP 86001	10/23/96

TRANSMITTED:

<u>Number</u>	<u>Date</u>
IMC 1007	02/07/02
TI 2800/029, Rev.2	02/07/02
IP 86001	02/07/02

TRAINING: No special training requirements have been identified for any documents issued with this change notice.

REMARKS: IMC 1007 (Interfacing Activities Between Regional Offices of NRC and OSHA) has been revised for editorial changes and to improve the clarity of the procedure regarding communication between NRC and DOL-OSHA.

TI 2800/029, Revision 2 (Nuclear Medicine Programs) has been revised to delete special reporting requirements from the regions because necessary data for the medical pilot has been collected. This revision also extends the expiration date to September 30, 2003, or until Manual Chapter 2800 has been revised to incorporate the elements of this TI.

IP 86001 (Design, Fabrication, Testing, and Maintenance of Transportation Packagings) has been revised to: 1) make editorial and administrative changes, 2) delete obsolete references to SALP, and 3) cite the IP to IMC 2690, and delete the citation to IMC 2515.

DISTRIBUTION: Standard
