Docket No. 50-244

References: (1) Letter from R.C. Mecredy, RG&E, to R.L. Clark, NRC, Subject: *Ginna Station Probabilistic Safety Assessment (PSA) Final Report, Revision 4*, dated February 1, 2001.

Dear Mr. Clark:

In Reference (1), RG&E submitted Revision 4 of the Ginna Station PSA Final Report. Subsequent to that submittal, RG&E identified several typographical errors (e.g., page numbering) within the document. In addition, an electronic PDF version of the Final Report has been created. As such, enclosed is a CD containing a PDF version of the Ginna Station PSA Final Report, Revision 4. This version also corrects the typographical errors. Any questions should be directed to Mark Flaherty, Nuclear Safety and Licensing Manager at (585) 771-3275.

Very truly yours,

Robert C. Mecredy
