Mr. Anthony Pietrangelo, Director
Risk and Performance Based Regulation
Nuclear Energy Institute
1776 I Street, N. W.
Suite 400
Washington, DC 20006-3708

Dear Mr. Pietrangelo:

The enclosure identifies reviewers and provides target dates for our responses to Technical Specification Task Force (TSTF) proposals now under consideration by the Nuclear Regulatory Commission staff. We committed to supply this information at the February 13, 2002, TSTF meeting.

We wish to make efficient use of staff and industry time in making decisions on these proposals. To that end, if necessary we will pursue additional information informally but on the record to minimize the number of formal revisions and the exchange of formal correspondence.

Please contact me or Bob Dennig if you have any questions or need further information.

Sincerely,

/RA/
