

February 21, 2002

Mr. J. A. Stall
Senior Vice President, Nuclear and
Chief Nuclear Officer
Florida Power and Light Company
P.O. Box 14000
Juno Beach, Florida 33408-0420

SUBJECT: TURKEY POINT UNITS 3 AND 4 — ISSUANCE OF AMENDMENTS
REGARDING CORPORATE OFFICER TITLE CHANGE
(TAC NOS. MB2457 AND MB2458)

Dear Mr. Stall:

The U.S. Nuclear Regulatory Commission has issued the enclosed Amendment No. 220 to Facility Operating License No. DPR-31 and Amendment No. 214 to Facility Operating License No. DPR-41 for the Turkey Point Plant, Units Nos. 3 and 4, respectively. The amendments consist of changes to the Technical Specifications (TS) in response to your application dated July 18, 2001.

The amendments would change the title of the corporate executive responsible for overall nuclear plant safety from "President-Nuclear Division" to "Chief Nuclear Officer," in Section 6.0, "Administrative Controls," of Turkey Point Units 3 and 4 TS.

A copy of the Safety Evaluation is also enclosed. The Notice of Issuance will be included in the Commission's biweekly *Federal Register* notice.

Sincerely,

/RA/

Kahtan N. Jabbour, Senior Project Manager, Section 2
Project Directorate II
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket Nos. 50-250 and 50-251

FLORIDA POWER AND LIGHT COMPANY

DOCKET NO. 50-250

TURKEY POINT PLANT UNIT NO. 3

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 220
License No. DPR-31

1. The Nuclear Regulatory Commission (the Commission) has found that:
 - A. The application for amendment by Florida Power and Light Company (the licensee) dated July 18, 2001, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations set forth in 10 CFR Chapter I;
 - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
 - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
 - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
 - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 3.B of Facility Operating License No. DPR-31 is hereby amended to read as follows:

(B) Technical Specifications and Environmental Protection Plan

The Technical Specifications contained in Appendix A, as revised through Amendment No. 220, are hereby incorporated in the license. The Environmental Protection Plan contained in Appendix B is hereby incorporated into the license. The licensee shall operate the facility in accordance with the Technical Specifications and the Environmental Protection Plan.

3. This license amendment is effective as of its date of issuance and shall be implemented within 60 days within issuance.

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 214
License No. DPR-41

1. The Nuclear Regulatory Commission (the Commission) has found that:
 - A. The application for amendment by Florida Power and Light Company (the licensee) dated July 18, 2001, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations set forth in 10 CFR Chapter I;
 - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
 - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
 - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
 - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 3.B of Facility Operating License No. DPR-41 is hereby amended to read as follows:

(B) Technical Specifications and Environmental Protection Plan

The Technical Specifications contained in Appendix A, as revised through Amendment No. 214, are hereby incorporated in the license. The Environmental Protection Plan contained in Appendix B is hereby incorporated into the license. The licensee shall operate the facility in accordance with the Technical Specifications and the Environmental Protection Plan.

- (C) This license amendment is effective as of its date of issuance and shall be implemented within 60 days of issuance.

SAFETY EVALUATION BY THE OFFICE OF NUCLEAR REACTOR REGULATION
RELATED TO AMENDMENT NO. 220 TO FACILITY OPERATING LICENSE NO. DPR-31
AND AMENDMENT NO. 214 TO FACILITY OPERATING LICENSE NO. DPR-41
FLORIDA POWER AND LIGHT COMPANY
TURKEY POINT UNIT NOS. 3 AND 4
DOCKET NOS. 50-250 AND 50-251

1.0 INTRODUCTION

By letter dated July 18, 2001, Florida Power and Light Company (FPL or the licensee) proposed a revision to the Technical Specifications (TS) for Turkey Point Plant, Units 3 and 4. The proposed amendments would change the title of the corporate executive responsible for overall nuclear plant safety from "President-Nuclear Division" to "Chief Nuclear Officer," in Turkey Point Units 3 and 4 TS, Section 6.0, "Administrative Controls."

2.0 BACKGROUND

On June 4, 2001, FPL appointed a Senior Vice President in charge of all nuclear operations. The Senior Vice President is an officer of FPL, reports to the President and Chief Executive Officer of FPL Group, and has corporate responsibility for overall nuclear plant safety. Consistent with the requirements of Title 10, *Code of Federal Regulations* (10 CFR), Section 50.54(a)(3), the licensee changed its Topical Quality Assurance Report (TQAR) to replace "President-Nuclear Division" with the generic organizational position title of "Chief Nuclear Officer."

Previously, the corporate executive responsible for overall plant nuclear safety was designated as "President-Nuclear Division," which is the title currently used in the Turkey Point Units 3 and 4 TS, Section 6.0. The proposed change eliminates the specific reference to the organizational title, "President-Nuclear Division," and replaces it with the generic organizational position title of "Chief Nuclear Officer." The Senior Vice President in charge of all nuclear operations will meet all the requirements of the title of "Chief Nuclear Officer" as delineated in the Turkey Point Unit 3 and 4 TS, Section 6.0, and the TQAR.

Use of the generic organizational position title of "Chief Nuclear Officer" will preclude the need for future amendments to the TS, if the title of the corporate executive responsible for overall plant nuclear safety were to be changed again.

3.0 EVALUATION

The licensee's request involves only a change in the title of the corporate executive responsible for overall plant nuclear safety of Turkey Point Units 3 and 4. The proposed changes to the TS are administrative in nature and result in no changes in responsibilities or accountabilities delineated in TS Section 6 and the TQAR. The proposed amendment will not require a design change or modification, additions, deletions to the physical plant or the modes of plant operations defined in the facilities operating licenses. Therefore, the TS revision is acceptable.

4.0 STATE CONSULTATION

Based upon a letter dated March 8, 1991, from Mary E. Clark of the State of Florida, Department of Health and Rehabilitative Services, to Deborah A. Miller, Licensing Assistant, U.S. Nuclear Regulatory Commission, the State of Florida does not desire notification of issuance of license amendments.

5.0 ENVIRONMENTAL CONSIDERATION

These amendments relate to changes in record keeping, administrative procedures or requirements. The Commission has previously issued a proposed finding that the amendments involve no significant hazards consideration, and there has been no public comment on such finding (66 FR 41622, dated August 8, 2001). Accordingly, the amendments meet the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(10). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of these amendments.

5.0 CONCLUSION

The Commission has concluded, based on the considerations discussed above, that: (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendments will not be inimical to the common defense and security or to the health and safety of the public.
