RE: Petition for Rulemaking filed by
Three Mile Island Alert

Dear Ms. Vietta-Cook:

In light of the recent terrorist activities the Cumberland County Board of Commissioners believe that security should be a clear and visible presence. The Board believes that the proposed amendment set forth above would provide an additional layer of security that would complement existing measures against radiological sabotage and would be consistent with defense-in-depth safety principles that have been in place for many years.

The Cumberland County Board of Commissioners supports the petition to require guards at nuclear plant entrances and encourages adoption of the above referenced proposed rule.

Sincerely,

Nancy A. Besch
