NRC TO MEET WITH EXELON TO DISCUSS PEACH BOTTOM PLANT PERFORMANCE

Nuclear Regulatory Commission staff will meet with representatives of Exelon Generation Company, LLC, on Tuesday, March 12, to discuss the results of the agency's annual assessment of safety performance at the Peach Bottom nuclear power plant. The facility, which has two operational reactors, is located in Delta, Pa., and operated by Exelon.

The meeting, which will be open to the public for observation, is scheduled to begin at 7 p.m. at the Peach Bottom Inn, 6085 Delta Road, Delta. NRC staff will be available after the meeting to answer questions from the public on the safety performance of Peach Bottom and the role of the NRC in ensuring safe plant operation.

The performance period to be discussed is April 1, 2001, to December 31, 2001. In addition, NRC staff will provide an overview of the agency's Reactor Oversight Process.

A letter sent from the NRC Region I office to Exelon addresses plant performance during the period and will serve as the basis for the meeting discussion. It is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/LETTERS/pb_2001q4.pdf

Current performance information for Peach Bottom Unit 2 is available on the NRC web site at: www.nrc.gov/NRR/OVERSIGHT/ASSESS/PB2/pb2_chart.html

Current performance information for Peach Bottom Unit 3 is available on the NRC web site at: www.nrc.gov/NRR/OVERSIGHT/ASSESS/PB3/pb3_chart.html
