

Date: February 25, 2002

DRAFT SUMMARY OF INFORMATION COLLECTION REQUEST

Title: NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters"

Current Burden/Responses: 1,200 hours/4,600 responses

Proposed Burden/Responses: 1,104 hours/4,232 responses

Burden Attributable to Third-Party Collections: None

Frequency of Response: On occasion

Reasons for Changes in Burden/Responses: Based upon the actual number of responses received during the last 3 years (4,232 instead of the estimated 4,600, a reduction of 368), the overall burden estimate for NRC Form 241 has decreased from 1,200 to 1,104 hours, for a net reduction of 96 hours. The number of initial submissions decreased by 16 from 200 to 184 submittals for a reduction of 8 hours; the number of revisions decreased by 88, from 1,100 to 1,012 for a reduction of 22 hours; and the number of clarifications decreased by 264 from 3,300 to 3,036 for a reduction of 66 hours. There is a change in cost because the hourly rate increased from \$121/hour to \$144/hour. The estimated cost is \$158,976.

Level of Concurrence: Chief, Material Safety Branch  
Division of Industrial and Medical Nuclear Safety  
Office of Nuclear Material Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records Rule: N/A

Search of the Information Requirements Control Automated System (IRCAS):  
IRCAS was searched on February 20, 2002. No duplication was found.

Abstract: NRC Form 241 is required to be filed with the NRC by any Agreement State licensee who engages in activities (use of radioactive byproduct material) in non-Agreement States under the general license in Section 150.20. The licensee is required to file four copies of the NRC Form 241 and four copies of its Agreement State license at least three days before engaging in each such activity. This notification permits NRC to schedule inspections of the activities to determine whether the activities are being conducted in accordance with requirements for protection of the public health and safety.
