Division of Industrial and Medical Nuclear Safety
2 White Flint North, 11545 Rockville Pike
Rockville, MD 20852

Mr. Bachu,

As you requested, here is a copy of the updated E-BAM manual. Although I have previously sent you fax copies and e-mails of the following, I have included copies of the application, Oregon amended license, radiation safety manual and the E-BAM assembly procedure. They all have holes punched in them so you can easily put them in the binder.

Sincerely,

Ron Siebert
