Subject: Re: IP-2 Issues

I received your writeup and forwarded to Region I. Ted left me a phone message that indicated that Jack wanted to turn the issue back on. The issue was delayed at the request of Jon Johnson. Has anyone discussed with him to assure he understands the issue and would like to proceed. I would like to let the Region know ASAP whether we believe it should be pursued.

Greg,

The attached file contains the latest version of the allegation write-up.

I included the June 29, 1997 phone call in the Background section and a paragraph that Ted had suggested in the Discussion section.
