Larry,

Stuart Treby provided his NLO, with comments, today (6/19). I placed the package, and a markup of his full comments, in your box for review prior to sending up to John.

I also revised the paragraph about PADEP involvement to cite their 6/12 verification survey report letter.

Good news. Let me know if this happens.

Larry,

Status on OGC chop on Cabot - Revere:

Concerrene package was given to OGC in parallel with you, on 6/14.
Lewis passed it to Treby, since Lewis is out the next two weeks.
Treby called me today (Friday, 6/15) with a few general questions about the site decommissioning. He indicated his review should be done on Monday (June, 18)
