NRC TO MEET WITH AMERGEN TO DISCUSS THREE MILE ISLAND 1 PERFORMANCE

Nuclear Regulatory Commission staff will meet with representatives of AmerGen Energy Company, LLC, on Tuesday, April 2, to discuss the results of the agency's annual assessment of safety performance at the Three Mile Island 1 nuclear power plant. The facility is located in Middletown, Pa., and operated by AmerGen.

The meeting, which will be open to the public for observation, is scheduled to begin at 2 p.m. in Room 119 at the Three Mile Island Training Center, which is located on Route 441, behind the plant's visitors center. Before the session is adjourned, NRC staff will be available to answer questions from the public on the safety performance of Three Mile Island 1, as well as the role of the NRC in ensuring safe plant operation.

The performance period to be discussed is April 1, 2001, to December 31, 2001. In addition, NRC staff will provide an overview of the agency's Reactor Oversight Process.

A letter sent from the NRC Region I office to AmerGen addresses the performance of the plant during the period and will serve as the basis for the meeting discussion. It is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/LETTERS/tmi_2001q4.pdf

Current performance information for the Three Mile Island 1 plant is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/TMI1/tmi1_chart.html
