Subject: Fwd: EP RESTART ISSUE

DRP Management was not on distribution for this.

There obviously are some strong views on the matter beyond DRS.

A meeting to air views is clearly needed.

Subject: EP RESTART ISSUE

Rich,

In addition to Dave's and my opinion about doing an "unannounced" exercise prior to restart (or least a full-scale exercise), I would like to add that Bill Raymond, Pete Habighorst and Ray Lorson are of the same opinion. The residents have expressed strong feelings to me about the inadequacy of the licensee's EP program and that major corrections have to be done along with an exercise prior to restart.

It has been a very painful week for all of us of heated discussions and I feel bad about this. However, from our "strong conversation" this afternoon, I think we've come to an impasse because Dave and I have a fundamentally different opinion from yours with regard to the significance of the EP findings and restart. I would really like to resolve this issue and request that we table this with Wayne, Brian and maybe Hub early next week to come to a consensus.

Thanks
