NAME
AND
ADDRESS
OF
APPLICANT**Sylvania-Corning Nuclear Corp.**
208-20 Willets Point Blvd.
Bayside, New York**INSTRUCTIONS**

The export of source material containing uranium and/or thorium is prohibited unless the exporter holds an AEC license to export and has AEC authorization for each proposed shipment. APPLICATION FOR AEC AUTHORIZATION FOR INDIVIDUAL SHIPMENTS SHALL BE MADE ON THIS FORM AEC-7, IN TRIPLICATE. In the event authorization is granted, the AEC will return to the applicant one copy of this application form along with an Export License on Form AEC-250. At the time shipment is made, the Export License must be presented to the Collector of Customs at the port of exit from the United States, or to the Postmaster at the Post Office of mailing, for endorsement and return to the AEC.

"Shipper's Export Declaration(s)" (Department of Commerce Form 7525-V, Rev. Nov. 1948) are also to be prepared, in accordance with the instructions on that form, and submitted to the Collector of Customs or the Postmaster at the same time the Export License, Form AEC-250, is presented.

In the event that only a partial shipment is made, the Collector of Customs or the Postmaster will so endorse the reverse of the Export License and return the License to AEC. If the licensee wishes to complete shipment of the unshipped balance, another AEC Form 250 (Export License) must be secured. However, he need not file another AEC-7 (License Application) with the Commission, but may apply by letter or telegram for a license covering the unshipped balance or any portion thereof. Such a letter or telegram may identify the commodities by "Item Number" as originally designated on the AEC-7 (License Application) previously filed.

The Export License is valid for only one shipment of any or all of the material listed on the face of the License. The License must be used prior to the expiration date indicated on the face of the License. In the event that the application is denied, the AEC will so notify the applicant by letter.

Export License Form AEC-250 may be transmitted by the licensee to his shipping agent or to any other person to whom the material licensed is transferred in the course of the licensed export transaction and may be presented to the Collector of Customs or the Postmaster by any person in lawful possession of the licensed material.

4. Application is hereby made to export the following materials:

COMMODITY DESCRIPTION AND QUANTITY (a)	ULTIMATE CONSIGNEE (b)	FOR AEC USE ONLY (c)
a) 227 Grams Thorium Metal Powder--100 Mesh	E. Lix Klett @ CIA. S.A. J. M. Blanes 470 Buenos Aires, Argentina	
	For use by above subsidiary of Sylvania in manufacture of fluorescent lamp materials & glow bottles.	

5. CERTIFICATION.—The licensee and any agent and official executing this certification on behalf of the licensee certify that this application is prepared in conformity with Code of Federal Regulations, Title 10—Atomic Energy, Chapter 1, Part 40—Control of Source Material, and the conditions of the AEC license, specified in block 2, above, and that all the information contained in this application is true and complete to the best of their knowledge and belief.
